The market for medical equipment and technology in Asia is booming. In excess of US \$24 billion is being spent each year with major hospital construction projects underway in nearly all of the Asian countries. Government spending on the health sector is expected to grow at approximately 8 - 10% per annum.

A new private health sector is also emerging in response to growing demand for quality health services. Suppliers to the Asian healthcare markets anticipate a 20-30% growth rate over the next few years. The need for the latest technology, materials and know-how in Asia is therefore greater now than ever before.

Increasingly sophisticated management techniques and purchasing methods also mean that competition

amongst suppliers is intense. *Asian Hospital & Healthcare Management* represents the most advanced networking of industry information ever published in the Asian markets and will be a required reading for hospital directors, administrators and medical practitioners in both the public and private sectors, together with top level representatives of Asia's health ministries.

Through its circulation list, *Asian Hospital & Healthcare Management* reaches the most powerful network of hospital decision makers in the region. The purpose is to promote advanced standards of healthcare by furnishing a forum for the exchange of information in every aspect of hospital services, patient care, and the latest medical technology.

The findings of a survey or assessments will give you independent, empirical data that can be used to inform and shape strategy and/or reinforce

the benefits of your product/ service; this acts as a key differentiator in an increasingly competitive market. Each project we undertake is customised to your requirements.

How can you leverage this with Asian Hospital & Healthcare Management?

## PURPOSE AND SCOPE OF THE PROJECT

- Are you looking for data that supports your strategy?
- Are you looking for independent evidence to showcase your proposition?
- What do you want the outputs to be (how many of the following steps do you want to take)?

### TARGET AUDIENCE

- How many respondents?
- What is their profile (eg, geography, company type, job function, seniority)?

### THE QUESTION SET

- We work together with you to refine the appropriate questions – this helps us derive the information you wish to extract.

#### Survey and Data Collection

- We host and promote the survey to ensure we generate response data against the targets you set.

### ANALYSIS

- We analyse the findings and draw insightful conclusions.

## PRODUCTION, PROMOTION AND DISTRIBUTION

- Whether you're looking for a write-up with graphs and charts from the analysis or a curated article, we can tailor the outputs and use any of our channels to share this information with the wider industry.
